

Donations help to build better libraries!

In addition to visiting your Classroom Wish List, did you know that there is another way that you can donate books to our school? Donating a book to our library is a wonderful way to purchase a book that your child, and other children in the school, can enjoy now and for years to come.

Ask about our library's "wish list" of available titles to choose from. If you have another book in mind that isn't on our list, our librarian can check if the book is available to order. When you donate a book to our library, a gift plaque sticker identifying your child as the donor is placed inside. Then their picture is taken with the book, and the picture is displayed in a special place in our library. What a great way to acknowledge your child's commitment to reading and to our school!

Thank you for supporting the Valley View Library!
